

# Update on Managing Shareholder

January 26, 2015

Arlington, VA — Leo Fisher and his wife, Sue, continue to progress in their recoveries, and are greatly appreciative of the support and encouragement they have received from friends, clients and colleagues. While there will still be challenges ahead, the firm is very pleased to have Leo now coming back into the office on a very limited basis, as he is able and his schedule allows.

Leo and Sue's primary goal remains full recovery, which is, of course, the firm's top priority as well. In support of their privacy and recuperation, communications with them will continue to be managed through Jackie Moore, the firm Office Manager, and Leo's assistant, Kimberly Rodarte, who knows Leo's schedule.

Out of respect for their wishes and privacy, we ask that members of the media refrain from any efforts to contact Leo or Sue directly.
